

Computational Linguistics: *Usage and Meaning*

LINGUIST492B

Spring 2022

Administrata

HW4: Due 4/5

Reading: Jurafsky & Martin Ch 13 for
Tuesday 4/5

What is syntax?

- The way words are arranged in a sentence and the relationships between them
- The relationships between words determine sentence meaning:

The teacher saw the student with the binoculars

- Two possible meanings, two possible syntactic structures (what are they?)
- Syntax determines possible word combinations independent of meaning:

Colorless green ideas sleep furiously (Chomsky)

All mimsy were the borogroves (Lewis Carroll, Jabberwocky)

What is syntax?

CFGs

- Context Free Grammars define trees.
- They go beyond finite state models of language (e.g. HMMs, n-grams) in one key way: **Constituency**
- Constituency is the 'is a' relationship that characterizes phrases in a sentence:

Mary and John went to the movies.

They went to the movies.

- Tree structure is useful for characterizing the structural relationship between elements in a sentence.

CFGs

- Formally, CFGs are a quadruple $\langle N, \Sigma, R, S \rangle$:
- N is a set of **non-terminals** (constituent categories)
- Σ is a set of **terminals** (the words/vocabulary)
- R is a set of **rewrite rules** of the form $A \rightarrow \beta$, where A is a single non-terminal, and β is a string from $(\Sigma \cup N)^*$
- S is the **start symbol**.

Abstract example

→ One grammar:

$$S \rightarrow S a \mid a$$

→ Another:

$$S \rightarrow a S a \mid a X a$$

$$X \rightarrow b$$

$$X \rightarrow X c$$

→ Structural ambiguity:

$$S \rightarrow a S \mid S b \mid a \mid b$$

How many parses of *aab* ?

Constituency

- How do we write / define rules?
- Key concept is **constituency**
- Constituents are groups of words that function as a unit.
- They are given labels or names, and correspond to nonterminal units in our CFG. Examples: **Noun Phrase, Verb Phrase, Prepositional Phrase**

Toy natural language grammar

$S \rightarrow NP VP$

$VP \rightarrow Verb$

$VP \rightarrow VP NP$

$PP \rightarrow Prep NP$

$NP \rightarrow NP PP$

$NP \rightarrow Det Noun$

$NP \rightarrow \text{They} \mid \text{Andrew} \mid \text{Amherst}$

$Noun \rightarrow \text{student} \mid \text{chicken} \mid \text{monkey} \mid \text{book}$

$Det \rightarrow \text{the} \mid \text{a}$

$Verb \rightarrow \text{saw} \mid \text{ate} \mid \text{wrote}$

$Prep \rightarrow \text{in} \mid \text{from} \mid \text{about}$

Toy natural language grammar

$S \rightarrow NP VP$

$VP \rightarrow Verb$

$VP \rightarrow VP NP$

$PP \rightarrow Prep NP$

$NP \rightarrow NP PP$

$NP \rightarrow Det Noun$

$NP \rightarrow \text{They} \mid \text{Andrew} \mid \text{Amherst}$

$Noun \rightarrow \text{student} \mid \text{chicken} \mid \text{monkey} \mid \text{book}$

$Det \rightarrow \text{the} \mid \text{a}$

$Verb \rightarrow \text{saw} \mid \text{ate} \mid \text{wrote}$

$Prep \rightarrow \text{in} \mid \text{from} \mid \text{about}$

Task 1: generate some sentences!

Toy natural language grammar

$S \rightarrow NP VP$

$VP \rightarrow Verb$

$VP \rightarrow VP NP$

$PP \rightarrow Prep NP$

$NP \rightarrow NP PP$

$NP \rightarrow Det Noun$

$NP \rightarrow They \mid Andrew \mid Amherst$

$Noun \rightarrow student \mid chicken \mid monkey \mid book$

$Det \rightarrow the \mid a$

$Verb \rightarrow saw \mid ate \mid wrote$

$Prep \rightarrow in \mid from \mid about$

Task 2: Parse *Andrew wrote about the student*

Toy natural language grammar

$S \rightarrow NP VP$

$VP \rightarrow Verb$

$VP \rightarrow VP NP$

$PP \rightarrow Prep NP$

$NP \rightarrow NP PP$

$NP \rightarrow Det Noun$

$NP \rightarrow They \mid Andrew \mid Amherst$

$Noun \rightarrow student \mid chicken \mid monkey \mid book$

$Det \rightarrow the \mid a$

$Verb \rightarrow saw \mid ate \mid wrote$

$Prep \rightarrow in \mid from \mid about$

Task 2: Parse *Andrew wrote the book*

Toy natural language grammar

$S \rightarrow NP VP$

$VP \rightarrow Verb$

$VP \rightarrow VP NP$

$PP \rightarrow Prep NP$

$NP \rightarrow NP PP$

$NP \rightarrow Det Noun$

$NP \rightarrow They \mid Andrew \mid Amherst$

$Noun \rightarrow student \mid chicken \mid monkey \mid book$

$Det \rightarrow the \mid a$

$Verb \rightarrow saw \mid ate \mid wrote$

$Prep \rightarrow in \mid from \mid about$

Task 2: Parse *Andrew wrote the book in Amherst*

Toy natural language grammar

$S \rightarrow NP VP$

$VP \rightarrow Verb$

$VP \rightarrow VP NP$

$PP \rightarrow Prep NP$

$NP \rightarrow NP PP$

$NP \rightarrow Det Noun$

$NP \rightarrow \text{They} \mid \text{Andrew} \mid \text{Amherst}$

$Noun \rightarrow \text{student} \mid \text{chicken} \mid \text{monkey} \mid \text{book}$

$Det \rightarrow \text{the} \mid \text{a}$

$Verb \rightarrow \text{saw} \mid \text{ate} \mid \text{wrote}$

$Prep \rightarrow \text{in} \mid \text{from} \mid \text{about}$

Task 3: Add a rule to create the other parse of *Andrew wrote the book in Amherst*

Toy natural language grammar

$S \rightarrow NP VP$

$VP \rightarrow Verb$

$VP \rightarrow VP NP$

$PP \rightarrow Prep NP$

$NP \rightarrow NP PP$

$NP \rightarrow Det Noun$

$NP \rightarrow They \mid Andrew \mid Amherst \mid them$

$Noun \rightarrow student \mid chicken \mid monkey \mid book$

$Det \rightarrow the \mid a$

$Verb \rightarrow saw \mid eat \mid eats \mid ate \mid wrote$

$Prep \rightarrow in \mid from \mid about$

Task 4: Why are these sentences problematic for our grammar?

Andrew likes them

*Andrew likes They

#The book ate

The monkey ate

*The student eat

The student eats

Toy natural language grammar

$S \rightarrow NP VP$

$VP \rightarrow Verb$

$VP \rightarrow VP NP$

$PP \rightarrow Prep NP$

$NP \rightarrow NP PP$

$NP \rightarrow Det Noun$

$NP \rightarrow They \mid Andrew \mid Amherst \mid them$

$Noun \rightarrow student \mid chicken \mid monkey \mid book$

$Det \rightarrow the \mid a$

$Verb \rightarrow saw \mid eat \mid eats \mid ate \mid wrote$

$Prep \rightarrow in \mid from \mid about$

Task 4: Why are these sentences problematic for our grammar?

Andrew likes them (**case**)

*Andrew likes They

#The book ate (**subcategorization**)

The monkey ate

*The student eat (**agreement**)

The student eats
